
MANIFESTO

MIA was created in November 2018 with the ambition to promote various artists from a continent different from ours and sometimes unknown in the West, to the detriment of its extremely vibrant culture.

Since 2018, we have been positioning ourself alongside Asian artists, whose impact in the West is sometimes insignificant.

Through artistic promotion, MIA is also part of the discovery of a creative and different culture.

We are based in Europe, more precisely between Belgium and France.

The team consists of translators, contributing editors and copywriters.

MIA is an independent bimonthly magazine, downloadable via our official website.

Same content as before, same purpose but in a novel form.
